

Bring a little magic to your classroom. (Without having to attend a school for wizards.)

Teachers have told us that special needs students and very small children needed a little extra help in interacting with the Activboard. So, presto, we introduced our Activwand. All 21 inches of it.

The result? EVERY child in the classroom can actively participate in lessons. The comfy handle and easy-to-use "click" means even very small fingers or those with less motor control can easily hold and use it.

Of course, teachers can experience the magic, too, as the Activwand gives them the extra reach they need to manipulate objects across the board without getting in the way of the lesson.

The Activwand hovers, clicks and is incredibly precise - just like our unique Activpen.

With the Activwand, students who were previously unable to access the Activboard have the magic of words, numbers, images, sounds and animation within easy reach.

activwand.

The new star of the screen.

complete with

Wire-free technology 'Talks' seamlessly with the Activboard, with no awkward cables.

Smooth, swift response Draw, drag and manipulate objects, write with no annoying time lag.

Full functionality 'Left click', cursor and mouse-over (hover), allowing pupils and teachers to fully interact with flipcharts, third party software packages and flash based content.

Warranty 12 months.

Free extras Upgrades, support, online training, user forum and resource downloads from prometheanplanet.com.

Choose from

Extra wands Additional wands are available for other teachers - or as spares.

And add

Take a look at the other parts of our Activclassroom™...

Activprimary® Our unique interactive software, created specifically for young learners, features a lively interface and resources tailored to the elementary classroom.

Activboard® with Activstudio software® The foundation of the Activclassroom. Our Activboard features built-in RF communication to student peripherals; USB, Serial or Bluetooth connectivity right out of the box; and full mouse functionality with our exclusive battery-free Activpen. Activstudio lesson creation software includes thousands of ready-made lessons and resources for teachers to create their own dynamic classroom materials.

Activslate® Interact with the Activboard® with our wire-free 'mini-board', small enough and tough enough to pass around the class or allow the teacher the flexibility to move around the classroom while teaching.

Activote® Instant whole group feedback and assessment during instruction. Generate discussion or gather opinions or answers from every student. It's easy to enjoy formative assessment when your lessons are created with Activstudio®. And our superior radio technology ensures that student answers can remain anonymous as no pointing to a receiver is required.

Activtablet™ Connected to your computer, it acts just like a small Activboard®. Great for drawing, designing lessons or tracing where you need to use a pen away from the Activboard®.

Activsupport A range of professionally recognized training programs are available.
